## **DETAILED ACTION**

### **Acknowledgments**

1. Applicant's submission filed on January 9, 2004 is acknowledged. Accordingly claims 1-40 remain pending.

### **Election/Restrictions**

**2. Restriction to one of the following inventions is required under 35 U.S.C. 121:**

- I. Claims 1-19, are drawn to a method of updating an electronic device, classified in class 713, subclass 161.
- II. Claims 20-40, are drawn to a mobile services network, classified in class 707, subclass 203.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I, and II, are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable (MPEP § 806.05 (c)). In the instant case, invention I has separate utility such as a method of updating an electronic device. Invention II has separate utility such as a mobile services network. Furthermore the combination of group I and II, as claimed does not require the particulars of the subcombination as claimed because updating an electronic device could be accomplished or performed without necessary need for a mobile services network as required in invention II.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because the search required for one group is not required for another group, restriction for examination purposes as indicated is proper.
5. Applicants are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 C.F.R. §1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Applicants are being afforded the courtesy of a written response due to the complexity of the case and the Examiner unsuccessful attempts to reach Applicant's representative by phone.
